Arved Harding

Senior Associate Data Scientist, Eastman Chemical Company

Arved Harding is a senior associate data scientist at Eastman Chemical Company in Kingsport, TN. He has used statistical tools for 34 years to help scientists and engineers solve problems in R&D, manufacturing, technical service, and analytical laboratories. As a member of Eastman's Applied Statistics Group, Arved has supported many areas of the company including polymers, films, coatings, adhesives, and cellulose esters. Designing and analyzing experiments is one of many toolsets he has utilized. Arved has been a user of Design Expert® for much of his career and as a member of Eastman's Applied Statistics Group, helped develop and teach classes in designed experiments employing Design Expert® as the hands-on tool for the participants.

Arved is an ASQ Certified Quality Engineer and has been an active board member of the local section of ASQ for over 32 years. He enjoys sharing his knowledge and experiences with others. He loves spending time with his wife and two married adult boys and volunteering in the community.
